我们独有的ssp 可视化自查平台

The image displays the Ssp Visual Self-Inspection Platform interface, which is used for managing and inspecting mobile applications. The platform is divided into two main sections: a top navigation bar and a main content area.

Top Navigation Bar: The bar includes the title "白站Debug平台" (White Station Debug Platform) on the left and a user profile icon on the right. Below the bar, there is a search bar with the text "测试记录" (Test Record) and a "Search" button.

Main Content Area: The main area is divided into two panels. The left panel, titled "测试记录" (Test Record), contains a list of test records. The right panel, titled "白站Debug平台" (White Station Debug Platform), displays the details of a selected test record.

Test Record List: The list shows records with columns for "测试记录" (Test Record), "时间" (Time), "产品" (Product), "主键" (Primary Key), "子键" (Sub Key), "路径" (Path), and "mid|key". The selected record is highlighted in yellow.

Test Record Details: The details panel shows the configuration of the selected app. It includes a "测试记录" (Test Record) section with a "时间" (Time) of 2017/05/31 19:21 and a "产品" (Product) of mobile... The details are organized into sections: "测试记录" (Test Record), "请求头" (Request Header), "请求体" (Request Body), and "响应体" (Response Body).

Request Body: The request body is displayed in a JSON format, showing the app's configuration. The JSON structure is as follows:

```
{  "alter_unique_app_count": {    "dj_crt": 0,    "dj_h5_crt": 1  },  "base_info": {    "action": 0,    "app_resort": false,    "client_version": "7.7.1.1011",    "combo": "commercial",    "commercial_type": 1,    "default_app": false,    "h5_flag": false,    "hostname": "w-sweng2.zrbtc",    "imei": "35521809020093",    "mid": "1b53104453c71fcc21d0b35fc5d97864",    "need_freq": "true",    "net": "4",    "page_id": 17,    "plugin_version": 160,    "privt_tm_flag": "false"  }}
```

平台的5大特点

1. 快速定位，高效解决！
2. 解放开发，方便测试！
3. 问题排查，无需复现！
4. 实时展现，不在等待！
5. 简单易用，人人可行！
